“Top quality chateaux from the lesser known right bank area of Pomerol are consistently achieving high returns due to its ratio of high quality and limited availability.”

“Big names and sought-after properties on the left bank (vintage depending), will always be a safe investment and will show great returns once these have reach maturity in 15 to 20 years”

“High quality Bordeaux estates are turning towards a more organic and biodynamic approach. Chateau Pontet Canet has been leading the way and is gaining cult status as a result...”
